

The Green Bay Advocate laughs in its sleeve at the idea of the little villages and towns in the interior getting charters and calling themselves cities. On which the *Racine Advocate* remarks: "Why, man, what is the use of exhibiting so much fogosity?" Is not the age a progressive one? Are there any girls or boys in your village? There are none here. We have not seen a girl these five years. There are a few babies of both genders about town. These go naked to a little above their knees—but as soon as they find it out, the girls put on long clothes, and are ladies; and the boys take a cigar in their mouth, and swear profanely—unhing gates and upset boxes of gifts, and are gentlemen. What is the reason that older boys cannot keep up with the times, and make cities? Supposing the business streets are blocked up with stamps, and the 'slows' are unbridged—that is no sign there is not a city in that neighborhood."

We publish the following for the benefit of those who believe like symptoms can only be alleviated for the time, not cured. Mr. D. remains healthy to this time.

C A S E 15.—This is to certify that for upwards of two years I have been subject to an asthmatic cough, shortness of breath, debility, and their attendant symptoms, which, a portion of the time, entirely incapacitated me for labor. Several physicians of this city were, in turn, employed without success in the cure of my disease. In an attempt called "Cathartes of the Spleen," attempted to relieve the affection of the Throat and Lungs, and lastly, after careful examination, one of my physicians asserted that "one lobe of the Lung and Liver were diseased." Leaving physician, Patent Medicines were taken, but with no better success than before. Last January, I placed myself under the care of Dr. T. H. Tubbs, of Fremont, who, after a careful examination, found that my new better health was due to improvement in the above symptoms which were wholly removed. This time I have no cough, breathe freely, have a good appetite, am strong, and can perform the hardest labor. Further particulars of my past condition and treatment, will be cheerfully given to any who may choose to call.

Fremont, June 4, 1853.—T. H. TUBBS.

S C R O F U L A .
Physicians' opinions of the wonderful efficacy of Rock Rose, in cases of Scrofulula. Dr. S. Fader, of New Haven, Conn., writes: "I have had the case of a Scrofulous female, in which the usual antiscrofulous remedies had all been employed. The disease was apparently arrested by this remedy. Dr. Isaac Parrish, of Philadelphia, remarks, that it has been successfully used in bad cases of Scrofulous diseases, &c. Dr. Webb, of Madison, Ct., has used the Rock Rose with success, in numerous cases of Scrofulula, particularly in children. Dr. J. W. Park, of New Haven, Conn., Dr. Wethersell, of Westport, Ct., have used it with most satisfactory results. Dr. L. P. Brackett, used it in his practice, in New London, Ct., and Clinton, for several years, with uniform success, in cases of Scrofulula and impotent consumption, and in his own case, when laboring under pulmonary diseases, with all the symptoms of consumption. This also used it with great success, in cases of Scrofulula and other blood diseases. Other physicians also speak of it as a valuable remedy for Scrofulous diseases. The above extracts are taken from a work by D. A. Tyler, M. D., of New Haven, Conn.

O X Y G E N A T E D B I T T E R S IN EUROPE.

Letter from Rev. L. D. Littler, a highly respectable Clergyman.

Paris, November 1, 1851.

DEAR Sir,—About two years since, I made use of a few bottles of your Oxygenated Bitters for a stomach complaint, which was at that time very bad. During the time I was having suffered somewhat in my general health, my medical advisers recommended a sea voyage, and some twelve months' respite from public duty.

Since my stay in England and France, I have found my old enemy, irritability of the stomach, returning again. I have not found any prescription to afford me relief, and I made inquiries in London, Paris, &c., for Oxygenated Bitters, but could not find any. I would therefore wish you will do me the favor to send by the earliest steamer to Havre, half a dozen bottles, name of Livingston, Webb & Co., 8 Place de la Bourse, Paris.

An old friend in England, Captain Jackson, of the British Army, I found, on my arrival, suffering from Asthma, manifestly the result of Dyspepsia. If you have a mind to send an additional bottle, I will add it to the one on his charger, to be sent to him, and to have the Captain try the medicine. I should be greatly troubled by you with this, but for a wish to be quite sure of obtaining the genuine article; and together with the hope of my friends, extend a hand to other sufferers like myself.

I long to believe, and am not aware that any name is known to you, that I have been the restorer of many ailing souls, twenty three years, in Scotland and Lancashire, Canada East, to which charge I hope to be able to return in the spring or summer time following.

And remain, dear Sir, your obedient servant,

L. DOOLITTLE.

Dr. G. B. Gibbs, Windsor, Vermont.
